THE GLOBAL STAGE FOR INNOVATION

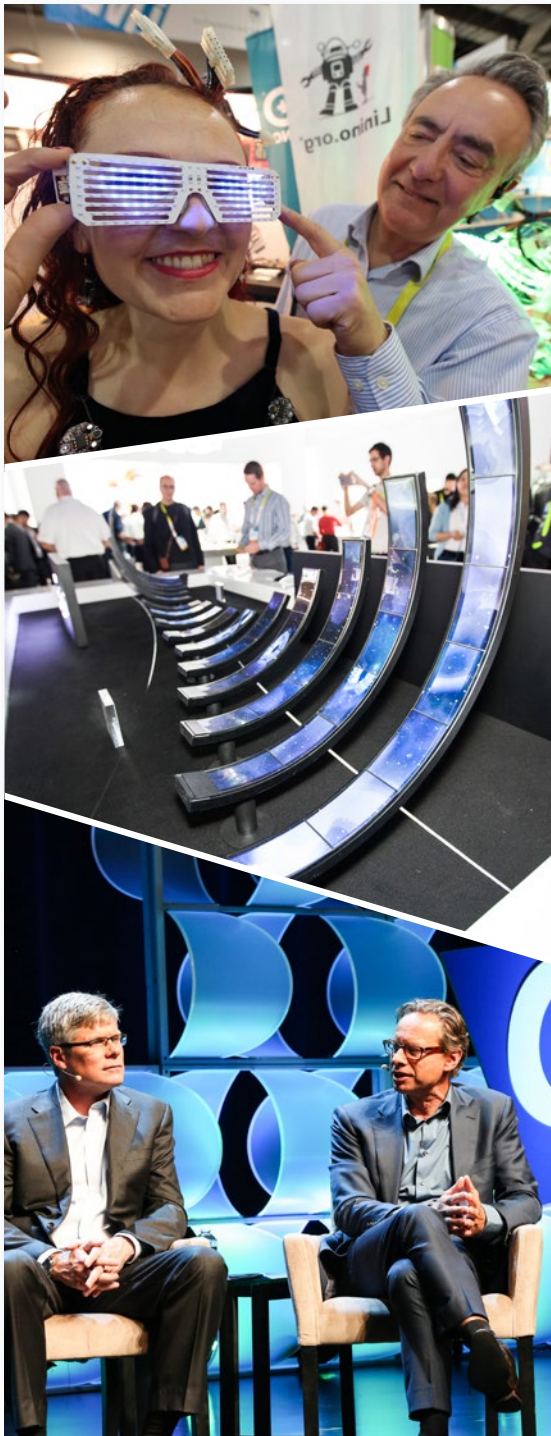

PRODUCED BY  CEA®

Las Vegas, Nevada, USA

The Epicenter of Innovation

Technology professionals from all corners of the globe unite in Las Vegas each January for CES®, the world's gathering place for all who thrive on the business of consumer technologies. CES is where top industry leaders take center stage to share their insights, global networks and partnerships are formed and ground-breaking innovations flourish. Over four days, experience firsthand the technologies poised to revolutionize the industry at the world's leading technology event.

CES features all aspects of the consumer technology market. See the latest innovations and major trends across 20 product categories:

- > 3D Printing
- > Accessories
- > Audio
- > Automotive Electronics
- > Communications Infrastructure
- > Computer Hardware/Software/Services
- > Content Creation & Distribution

CES welcomes more than 165,000 attendees, including more than 45,000 from outside the U.S. Take advantage of the international services below to help maximize your visit to CES 2016:

- A formal delegation program for visitors from outside the U.S. who wish to take advantage of the benefits of group travel to this trade-only event.
- Multiple International Business Centers (IBCs), which offer private meeting rooms, computer stations and laptop hookups with Internet access, a lounge area with light refreshments, registration assistance and more.
- CES participates in the U.S. Department of Commerce's International Buyer Program (IBP). Representatives from the Department of Commerce are available on-site to assist with any export related questions.
- An International Matchmaking Reception exclusively for international attendees, exhibitors and media held on the opening day of the show.
- A multilingual staff fluent in multiple languages including, Chinese, French, Japanese, Korean and Spanish, available to assist with registration, interpretation or other on-site needs.
- Translation services for CES keynote addresses (select languages).
