

## CONVENTION CENTER

South Hall 1 - Ground Level  
Connected Home

\* The aisle width is a visual reminder that the code must be followed, and booth structure should not run more than 100 linear feet without a break to allow for egress. Technically, the code states that "the travel distance within booth or exhibit enclosure to an exit shall not exceed 50 feet (2003 NFPA 101, 13.7.4.3.2)". Exhibitors must submit all booth plans to the AECMA Fire & safety manager for Fire Marshal approval at boothplans@aecma.com
