

Pre-Registered Media List Information

The pre-registered media list contains contact information for all of the press, analysts and bloggers that have registered for the 2010 International CES. For your convenience, the list will be accessible via the CESweb.org site starting November 4, 2009.

Simply go to CESweb.org and locate the “For Exhibitors” green box at the top right side of the screen. Click on “PR Help” and you will see a link for the CES pre-registered media list. To download the list you will need to enter your company name and exhibitor ID number, which you can find on your show invoice. Please contact your sales representative or send an email to prcontacts@CE.org.

Remember this link will not be available until Wednesday, November 4, 2009.

The list will be updated every Wednesday as the number of registered press and analyst attendees grows. Press, analysts and bloggers choose whether or not to list their phone, fax and e-mail contacts on the list. Titles, company names and addresses automatically are incorporated.

NOTE: If no phone number or e-mail address is provided on the list, CES cannot divulge that information due to privacy concerns. We apologize for any inconvenience.
