

Tracking Label Instructions

Labels are being used to easily identify Innovations shipments in the GES warehouse.

- Use standard address labels size 3 ½" x 4".
- Best of Innovations award winners use florescent YELLOW, Honoree award winners use florescent PINK, or color the labels with a fluorescent yellow or pink highlighter.
- Type INNOVATIONS 2006
- Affix the labels on any four sides of the shipping package or the underside of the product's packaging if hand delivering the product to the Innovations Office.

The Best of Innovations honorees will need to provide two units of the product. One will be on display at CES Unveiled and then moved to the Grand Lobby of the LVCC where it will reside throughout the show days. The other will be on display at the Sands Expo and Convention Center in the Innovations Showcase in Innovations Plus, Booth #72444.
