“showNets – High Speed Internet Access and Technical Support for the Trade Show Floor”

Information and Conditions

showNets is the exclusive provider for network services at the E3 Event at the LACC. This includes all exhibit halls, meeting rooms, exterior areas and temporary structures. In providing the services requested in this order, showNets, nor it's officers, employees, agents, contractors nor subcontractors shall be liable to the Customer for any damages, including special, incidental or consequential damages for loss, damage or expense, directly or indirectly arising from Customer's use or inability to use the services herein requested, or for commercial loss of any kind (including loss of business or profits) whether or not showNets has been advised of the possibility of such damage or loss.

Services Order Request and Payment

1. THIS SERVICES ORDER MUST BE RECEIVED **WITH FULL PAYMENT AND/OR CREDIT CARD AUTHORIZATION** PRIOR TO 4/26/06.
2. Orders received after 4/26/06 will be charged an expedite fee of \$300.00. Checks will not be accepted for on-site orders.
3. Booth location and location of Network Connection must be identified for processing of order.
4. All monies are collected by showNets. All requests for credit or refund should be directed to showNets. Credit can not be given for service installed and not used.
5. Refunds will not be granted for service installed and deemed inoperative due to faulty exhibitor equipment or off-site service problems.
6. A \$35.00 service fee will be charged for all returned checks.

Services Installation And Equipment Use

1. You receive access to the Internet via a switched 100 Meg Ethernet Local Area Network (LAN) connected to the Internet via one or more T1 lines and/or a DS3. Please keep in mind; the Internet is a public domain. showNets has no control over nor is it responsible for the external network performance once the network traffic leaves the showNets network and is received by the ISP's POP router and beyond.
2. showNets will provide a single Cat-5 Ethernet cable, with a male RJ45 connector, to your booth or pedestal. This cable will connect to the Ethernet adapter that should be installed in your machine. With this cable will be a TCP/IP address. A printed copy of the full TCP/IP address information will be provided to you at the start of the event to facilitate your configuration of the demonstration machine. The address information will also be available in advance of the event on the showNets web site (www.shownets.net/events).
3. To connect additional computers to the network you will need to order additional TCP/IP addresses. Please see the Order Form. You need to bring or rent an Ethernet Hub and patch cables for connecting these additional machines. Each machine will require an Ethernet adapter and TCP/IP stack.
4. REMEMBER, **ONE (1) TCP/IP ADDRESS MUST BE ORDERED FOR EACH MACHINE TO BE CONNECTED TO THE INTERNET**, IRRESPECTIVE OF ANY LOCAL PROXY SERVER, ROUTER, OR OTHER ARRANGEMENTS IN YOUR BOOTH.
5. Cancellation Policy: showNets must be notified in writing two (2) weeks prior to show date to cancel Internet Access Order. Orders placed within 2 weeks of the show are non-refundable.

For further assistance please contact **showNets** via e-mail at techhelp@shownets.net with your questions. Please include your telephone number in your message so we may call you to discuss your question if appropriate.

Additional Services

In Booth Wiring – Please provide showNets with an 8.5 x 11 drawing of your booth in order to receive a bid to wire your booth and/or room. The bid will include all equipment and labor necessary to install an Ethernet network in your booth and/or room. Once the wiring has been installed and tested, you will be asked to sign off on the cable installation. Any broken and/or cut cables after you sign off on the installation, as a result of your booth build, will be your responsibility. showNets will assist in the trouble shooting and resolution of any cabling issues at \$200 per hour per technician with a one hour minimum charge.

Rental Equipment – all rental equipment (Ethernet hubs and cables) are furnished on an as is basis. If either the hub(s) and/or the cable(s) do not function properly, please return them to the showNets service area for a replacement. showNets is not responsible for rented patch cables that are installed under the carpet.
