

North Hall

* Fire aisle notation is a visual reminder that fire code must be followed, and booth structure should not run more than 100 linear feet without a break to allow for egress. Technically, the code states that the travel distance within booth or exhibit enclosure to an exit shall not exceed 50 feet (2003 NFPA 101, 13.7.4.3.2). * Exhibitors must submit all booth plans to the LVCCA fire & safety manager for Fire Marshal approval at boothplans@lvcca.com
