

SES is very happy to welcome back the 2006 International CES to the Sands Expo and Convention Center. We are looking forward to and are anticipating a very successful show.

Below we have provided a chart to help facilitate the ordering of your electrical needs for the upcoming show. We hope the commonly used items below and the amount of electricity which each item consumes will assist you.

For additional help or assistance, please feel free to contact us via e-mail at electrical@sandsexpo.com

Have a successful show!
