

## **Northeastern U.S. Technology Companies Debut Cutting-Edge Technologies at 2015 International CES**

*More than 325 companies from Northeastern U.S. exhibit at world's  
gathering place for technology innovation*

"This year is going to be the most exciting CES for iDevices, yet. We're thrilled to be developing iDevices that will work with Apple's new HomeKit Accessory Protocol and can't think of a better place to show off our new products, than the Consumer Electronic Show. It's our favorite time of year and this year, iDevices plans on being a real show-stopper!"

- *Lianne Kersey, marketing manager, [iDevices LLC](#), based in Avon, Connecticut*

"As an early-stage startup, we at zettaly.com are very excited about debuting several products at CES 2015. We'll showcase a full line of the world's fastest-charging battery packs that was first introduced on Kickstarter, and unveil a stealth-mode product in a completely different category. Zettaly's mission is to empower everyone around the world to experience the wonder of new technology in the daily life. We aim to bring novel, practical, and delightful products to consumers faster than anyone."

- *Harry Wang, CEO & co-founder, [Zettaly Inc.](#), based in Westport, Connecticut*

"ION Audio, a leader in lifestyle consumer electronics, is reinventing traditional audio with an innovative new line of consumer entertainment products. We continue to choose the International CES as the stage to reveal our new line, showcasing the latest in portable audio, lighting and turntables, all designed to allow consumers to enjoy music in new ways and have the very best sound experience."

- *Paul Buckley, director of marketing, [ION Audio](#), based in Cumberland, Rhode Island*

"This year in International CES 2015, IPG is introducing its hi-tech tempered glass protector, the most invisible and durable GLASS protector in business. IPG's scientifically developed GLASS guard is hammer proof and easy to install. Price is ridiculous, too. We are ready to participate in 2015 CES to prove everything we claim."

- *Sena Servi, vice president, [IPG](#), based in Elmwood Park, NJ*

"We're ecstatic to demonstrate the HyprKey platform at CES. Our biometrically secured three-factor authentication system allows consumers to spend bitcoin without ever owning bitcoin. This is the consumer-focused 'killer app' that will finally solidify Bitcoin as a mainstream

payment method for consumers worldwide – all while eliminating fraud from current mainstream payment platforms. Visit us at LVCC, South Hall 1 – 22027, the personal privacy and security marketplace.”

- *George Avetisov, CEO of [Hypr Corp](#), based in New York City*

“Battery life, power and energy management are the most pressing challenges in all mobile, wearable or connected devices. We remove battery runtime anxiety with CES Innovation Award-winning technology: a form flexible and ultrathin ultracapacitor method to extend batteries and reduce charge time. We’ll show new applications at CES (Booth 755540 in Eureka Park), including an IoT wireless sensor power solution that increases range and requires no battery change for up to 10 years or longer.”

- *Shreefal Mehta, CEO of [Paper Battery Company](#), based in Troy, New York*

“Haier's presence at the 2015 International CES is a debut of the new focus for the U.S. market. With a strong emphasis around driving product development for consumer usage, we are featuring solutions that are meeting the current living/housing trends of consumers.”

- *Adrian Micu, president and CEO of [Haier America](#), based in Wayne, New Jersey*

“Up and coming sports technology company, Diamond Kinetics is preparing to launch our flagship product, SwingTracker, at CES 2015. With this brand new, proprietary sensor that captures over 11,000 data points per second, we are bringing a data-driven, tech-inspired approach to baseball performance improvement that the CES crowd will love and appreciate. It will be the most comprehensive swing measurement tool available. We welcome everyone to visit our booth and take a practice swing for us to measure and analyze.”

- *C.J. Handron, [Diamond Kinetics](#), based in Pittsburgh, Pennsylvania*

“Upper Desk, Inc. is excited to exhibit at CES—the leading platform for the newest developments in consumer electronics,” says. “In Eureka Park Next, Upper Desk will display its mounts which install in seconds with the patented Easy Latch System®--a secure clamping method that does not require tools.”

- *Matthew Fidler, CEO of [Upper Desk, Inc.](#), based in Hughesville, Pennsylvania*

“CES is the premiere venue to unveil the Linx IAS impact monitoring system. It’s an honor to be alongside the biggest innovators and companies of the future as we present our technology at booth #74701 in the Sands Expo. With the launch of Linx IAS, we are taking our state-of-the-art head impact sensor technology from the battlefield to the playing field, with the goal of decreasing the prevalence of traumatic brain injuries in youth sports.”

- *Richard Spotts, CEO of [Blackbox Biometrics, Inc.](#), based in Rochester, New York*

"The International CES is the indeed a global-leading launch pad for innovators and breakthrough technologies and this year at CES 2015, we are excited to launch our world's 1st patented eGeeTouch® Smart Luggage Lock which poised to redefine and revolutionize the travel luggage industry."

- *Dr. Jim Li, Group CEO of [DIGIPAS USA](#), based in Avon, Connecticut*

"The Kurio brand has had many successful years at International CES and we look forward to participating again. This holiday, we introduced the first body-controlled tablet games, and at 2015 CES we're excited to launch Kurio Motion 2.0 multiplayer games. Come play at booth #74343 in the Kids and Technology marketplace at Tech West."

- *Tom Emelo, vice president of marketing, [Techno Source](#), a division of LF Products (a Li & Fung company), based in New York City*

"From a business standpoint, this is an incomparable opportunity to connect with some of the world's top innovators. We can't wait to contribute to this high-level conversation by sharing our perspective."

- *Mike Patterson, CEO of [Graphene Frontiers](#), based in Philadelphia, Pennsylvania*

"We're excited to present Ultra-D glasses-free 3D in never-before-seen ways, including top-of-the-line 65-inch displays, digital signage solutions, tools for broadcast, and native video gaming in association with Epic Games," said which is exhibiting in Central Hall #13634. "It's our biggest and best showcase to date and represents the growth we've achieved worldwide, as evidenced by our screens also being displayed by Qualcomm, Skyworth and other partners."

- *Mathu Rajan, CEO of [Stream TV Networks](#), based in Philadelphia, Pennsylvania*

"We are proud to celebrate our 10th consecutive year exhibiting at CES, which continues to be our venue of choice to introduce our latest and greatest products to retail buyers. After a record-setting year, we're excited to introduce a new collection of on-trend, high-quality products across our Nostalgic Electronics, Bluetooth Audio and "Justin" Portable Power Product lines."

- *Corey Lieblein, founder and CEO of [Innovative Technology](#), based in Port Washington, NY*

"2014 Silicon Bridge winner Honaro will finally make its official US launch! Five long years and the adventure of a lifetime have come to bringing America Poland's leading business portal, and the only tool for REAL trust on the web. CES and Eureka Park are the perfect venue for us to showcase to America how we are connecting businesses and clients in a new more cooperative way. Stop by and see the portal taking Europe by storm."

- *Karol Andruszkow, [Honaro](#), based in New York City*

"We're thrilled to return to CES, a year after winning the Best of CES Award for Audio Product, as this show helped launch Clio's success in 2014. We are excited to tell the world that Clio™,

the most décor-friendly speaker in the market today, is now available for purchase. We're expanding global distribution and sharing our CES success story with others."

- *Gene D'Ovidio, vice president, strategic marketing and relationship management, [ClearView Audio](#), based in Wellesley, Massachusetts*

"We've been creating exciting new solutions for our customers that need to know weather or environmental conditions for their jobs, missions and hobbies," says. We recently released the Kestrel DROP rugged wireless environmental data logger along with the Kestrel Connect iOS app. We know we're going to meet customers at CES with creative ideas for how to put it to work!"

- *Alix James, CEO of [Kestrel by NK](#), based in Boothwyn, Pennsylvania*

"We are thrilled to launch StandStand, the world's only portable standing desk, at the 2015 International CES. Weighing only two pounds, StandStand collapses to the size of a laptop and goes wherever you do. At \$69, StandStand makes the health and productivity of a standing desk available to everyone and can equip an entire office for the cost of one traditional standing desk."

- *Luke Leafgren, inventor and CEO of [StandStand](#), based in Cambridge, Massachusetts*

"Grillbot can't wait to participate in our second CES. We are introducing our new Video Point of Purchase Display Units and The Grillbot Carry Case. Very exciting news to share at one of our favorite events of the year."

- *Ethan Woods, CEO of [GRILLBOT,LLC](#), based in New York City*

"CES is the premier event for the Consumer Electronics industry, and we're thrilled to launch our first consumer-facing product, a "hearable" that allows users to create and control their own personal soundscape, there in January. We look forward to sharing our innovation, technology, and vision of transforming the art of listening among the fascinating CES community."

- *Bob Spaner, president of [ONvocal](#), based in Burlington, Massachusetts*

"International CES is unparalleled to any other consumer electronics show in America. Hands down, it presents the best platform for innovators to introduce and expose new mobile technology to the world. I look forward to introducing our latest Generation 2, Pro Series product for IOS and Android mobile devices."

- *Brian Tedesco, president and innovator of [ChargerLeash](#), based in Mawah, New Jersey*

"This year we have the opportunity to be part of the forward-thinking 2015 International CES and really help drive the reality of cloud innovation and the connected car. We will be among some of the world's most innovative companies, showing consumers the wealth of new technology available at their fingertips. We are proud to showcase the work we've done to enable consumers to enjoy an integrated experience through all devices."

- *Stephen Waldis, chairman and CEO of Synchronoss Technologies, based in Bridgewater, New Jersey*
