This guide is provided to help you with placing your Innovations 2011 entry in the appropriate category. Definitions of the product categories and examples of product entries are listed under the **ORANGE BOLDFACE TYPE** award categories.

Review this guide to determine the best fit for your product. If you have further questions about award categories or your entry, please contact Innovations@CE.org. Please note that the judges may move your product to another category, if deemed necessary.

AUDIO ACCESSORIES

Products designed to enable, enhance, connect and/or maintain home audio systems and components. Examples include:

Antennas	Microphones
CD Care Products	Storage Products
Disc-Based Micro Storage Devices	Wires and Cables

AUDIO COMPONENTS

Products designed to deliver, control, store and/or manage audio content including records, tapes, disc-based audio, MP3 and hard drive storage. Examples include:

Amplifiers	Audio Component Products
CD Changers	Audio Products
CD Players	Audio Systems
Compact/Shelf Systems	Professional Audio
Digital Sound Projectors	Portable Audio Player Docking Stations
DJ Equipment	Preamplifiers
DVD Audio Players	Rack Systems
Equalizers	Satellite Radio Enabled Receivers
Home-Based Internet Audio Devices	Stand Alone Surround Sound Processors
Home-Based Satellite Radio Products	Tuners
Micro/Desktop Systems	Turntables
Mini-Systems	Under-Cabinet, Wall Mounted
Mixing Boards	

COMPUTER ACCESSORIES

Products designed primarily around single use functionality to enable, enhance, connect, power and/or maintain desktop and/or portable computer systems. Examples include:

Cables and Connectors	Mousepads
Carrying Cases	PC Cooling Products
Ergonomic Products	Power Adapters
Mobile Computing Accessories	Storage Products
Monitor Glare Screens	Wrist Rest Bars

INTERNATIONAL CES INNOVATIONS 2011 DESIGN AND ENGINEERING AWARDS CATEGORY GUIDE

COMPUTER HARDWARE

Includes all desktop and portable computer systems capable of accepting user input, storing, and retrieving data, displaying or outputting a video signal and are capable of running application software. Does not include products whose primary purpose is making and receiving phone calls.

Examples include:

Desktop Computers	Netbooks
Hand-Held PC	Notebook Computers
Mobile Computing Devices	Tablet PCs
Mobile Internet Devices	Ultra Mobile PCs

COMPUTER PERIPHERALS

Products designed to connect to and extend the functionality of desktop or portable computer systems. Examples include products that provide printing, network and user input and output display and the following:

Backup Devices	Personal Copiers
Computer Cards	Pointing Devices
Copiers	Portable Copiers
Data Projectors	Portable Fax Machines
DVD Drives and Kits	Printers
Expansion Docks and Adapters	Scanners
Hard Drives	Shredders
Hubs and Converters	Smart Displays
Keyboards	Speakers
Microphones	Supplemental Power Systems
Monitors	Surge Suppressors
Multi-Function Devices	Tape Drives
(Any Combination of Fax, Copy, Print, Scan)	Uninterruptible Power Supplies (UPS)
PC-Based Cameras	

DIGITAL IMAGING

Products designed to enhance the visual experience and/or allow the user to capture, store and edit still or movie video images. Examples include:

Binoculars	Lights
Backup Devices	Photo Display Devices
Batteries	Photo Sharing Tools
Cables	Photograph Printers
Camcorders	Printers
Camcorder Accessories	Retail Kiosks
Cameras	Scanners
Carrying Cases	Storage Products
Digital Imaging Accessories	Tripods
Flash RAM/Portable Media Storage

ECO-DESIGN AND SUSTAINABLE TECHNOLOGIES

Innovative features incorporated into consumer electronics products that make them safe for the environment. For example, efficient and clean energy use; manufacturing processes that reduce use of environmentally relevant substances (e.g., lead, mercury); durability/end-of-life (reuse, refurbish, remanufacture, recycle); resource conservation.

ELECTRONIC GAMING HARDWARE

Products (hardware) designed to allow one or more users to interact with electronic games. Examples include:

Consoles	Network Connectivity Accessories
Controls	Memory Upgrades
Carrying Cases	Sports Accessories
Cords and Cables	Storage Products
Handheld Devices	Systems/Consoles
Gaming Accessories	Virtual Reality Hardware
Joysticks/Controllers	Wireless Network Adapters

ELECTRONIC GAMING SOFTWARE

Software designed to allow one or more users to interact with electronic games. This category includes gaming software and web-based software. Examples include:

Software	MMOG
MMORPG	Web-based games

ENABLING TECHNOLOGIES

Software embedded in silicon designed to provide functionality to finished products or subassemblies. Examples include:

Chips	Memory
Electronic Components	Optical Lenses
Embedded Technologies	Electronic Components
Integrated Circuits	Embedded Technologies
Internal components that improve a product's performance	Processors

HEADPHONES

Devices that allow users to listen to audio content (music, radio, video, TV, gaming and telephone conversations). The devices may incorporate microphones for user voice response or input. Examples include:

Earpieces	Headsets
Bluetooth	Wired

HEALTH AND WELLNESS

Products designed to test, monitor, or analyze the health, well-being, fitness and/or medical condition of an individual or provide therapeutic benefits. Products should have significant electronic functionality as a central part of the item's operation. Examples include:

Aesthetics Equipment (Obesity/Weight, Cosmetic)	Personal Safety Devices
Cellular phone applications to monitor, diagnose, and/or assist medically	Remote Monitoring Devices
Body Composition Monitors (Home, Professional)	Scales (Home, Medical, Veterinary, Food Service)
Fitness Products	Therapeutic Equipment (Pain Relief, Physiotherapy, Sports/Rehab)
Hand-held Monitoring Devices	Vision and Hearing Products
Home Healthcare Products	Video/Image Capturing Devices
Mobility Aids	Other Healthcare Product and Devices

HIGH PERFORMANCE AUDIO

Separate audio components and speakers that provide for optimal performance and sound reproduction. Items are typically produced in very limited quantity and are handcrafted. Examples include:

Accessories	Preamplifiers
Amplifiers	Receivers
CD Players	Speakers
Equalizers	Tuners

NEW! MAJOR HOME APPLIANCES

Products whose primary function is to be used in the home. These products are designed to provide home heating and cooling, comfort, aesthetics, convenience and home cleaning. Products should have significant electronic functionality as a central part of the item's operation. Examples include:

Air Conditioners	Microwave Ovens
Clothes Washers and Dryers	Ranges and Ovens
Cooking Ventilation Equipment	Refrigerators
Dehumidifiers	Trash Compactors
Dishwashers	White Goods

NEW! PORTABLE HOME APPLIANCES

Products whose primary function is to be used in the home. These products are designed to provide food storage and preparation, comfort, aesthetics, convenience and home cleaning. Products should have significant electronic functionality as a central part of the item's operation. Examples include:

Air Treatment	Powered sweepers
Extractors	Telephones
Housewares	Telephone Accessories
Mixers	Vacuum Cleaners

HOME NETWORKING

Products and accessories which enable users to maintain a wired or wireless data network for the purpose of providing file, print and Internet access sharing. Systems may also include products and software that provide for remote and conditional access. Examples include:

- | | |
|-------------------------------------|---|
| Audio Delivery Systems | Phone Line Based Systems |
| Ethernet Based Networking Systems | Power Line Based Networking Systems |
| Ethernet Based Systems | Power Line Based Systems |
| Firewall/Routers | Residential Gateways |
| Internet Access Devices | Switches |
| Internet Based Audio Devices | WiMax Equipment |
| Modems | Wireless Access Points |
| Residential Gateway Products | Wireless Adapter Cards |
| PC/TV Combinations | Wireless Based (801.11x) Networking Systems |
| Phone Line Based Networking Systems | Wireless Based (801.11x) Products |

HOME THEATER SPEAKERS

Includes speakers whose primary purpose is incorporation into a home theater system. Examples include:

- | | |
|--|-------------------------|
| Bookshelf | In-ceiling |
| Center Channel | Outdoor |
| Digital Sound Projectors | Speaker Systems |
| Flat | Subwoofers |
| Floor | Surround Sound Speakers |
| Home Theater Packages | Wall Mount |
| Home Theater Speaker Surround Packages | Wireless |
| In-wall | |

HOME THEATER ACCESSORIES

Items enabling home theater component connectivity, power quality, mounting, storage and content management. Examples include:

- | | |
|-----------------------------|---|
| A/V Calibration Devices | Other Home Theater Accessories |
| Antennas | Other Customer Installation and Design Products |
| Conditioners | Other Home Theater Accessories |
| Installation Products | Other Home Theater Lighting Products |
| Mounting Equipment/Brackets | Remote Controls |

IN-VEHICLE ACCESSORIES

Products designed to enable, enhance, connect and/or maintain in-car audio, video, navigation systems and components. Examples include:

- | | |
|------------|-----------------------------|
| Adapters | Mobile Installation Devices |
| Antennas | Mounting |
| Cabling | Marine Accessories |
| Capacitors | Remote Starters |
| Insulation | Other In-Car Accessories |

IN-VEHICLE AUDIO/VIDEO

Products and components designed to be part of an in-car audio and video system. Examples include:

Amplifiers	Head Units
CD Changers	In-dash Displays
Crossovers	Monitors
DVD Players	Multimedia Systems
DVD/Display Package Systems	Other Car Audio Equipment
DVD/VHS/Display Package Systems	Other Mobile Audio and Video Products
Equalizers	Satellite Radio Receivers
HD Radio	Speakers

IN-VEHICLE CONTROL/OEM INTEGRATION

Products and components designed to facilitate the integration of aftermarket and OEM audio, video and navigation systems in the car.

IN-VEHICLE NAVIGATION/TELEMATICS/ITS

Products and components designed to be part of an in-car navigation and/or information retrieval and transmission service. Examples include:

Depth Finders	Radar Detection
Global Positioning Devices	Remote Starters
Intelligent Transportation Systems	Security
Navigation Systems and Devices	Transmitters
Marine Products and Accessories	Weather/Maritime Radios

INTEGRATED HOME SYSTEMS

Products and components designed to be used as complete systems or subsystems in the home to control the distribution of and access to audio and video content. Systems also control lighting, energy and environmental systems and security access. Examples include:

CEBus Products	Other Integrated Home System Products
Central Vacuum	Remote Control Systems
Energy Management/HVAC Systems	Telephones and Communications
Gate Access Controls	Video Surveillance Systems
Home Security Monitoring/Installation Services	Whole House Systems
Intercom/Telephone Systems	Window Controls
Lighting Control Systems	Window/Covering Controls
Lighting Fixtures	Wire, Cable and Wiring Systems
LonWorks Products	X-10/Powerline Carrier Devices
Other Home Security	

INTERNATIONAL CES INNOVATIONS 2011 DESIGN AND ENGINEERING AWARDS CATEGORY GUIDE

MULTI-ROOM AUDIO/VIDEO

Systems specifically designed to allow users to centralize content and then redistribute via multiple simultaneous discrete streams to multiple locations in a home. Examples include:

A/V Receivers
Distribution Systems
Diplexers
Home Theater in a Box
Home Theater PCs
Line Doublers
Media Servers

Multimedia Control Centers
Multi-room Audio Products
Receivers
Separate Home Theater Audio Components
Separate Home Theater Video Components
Set-top Boxes
Video Scalers

ONLINE AUDIO/VIDEO CONTENT

Any audio or video that can be transmitted via the Internet. Content can be streaming or accessed through downloading.

PERSONAL ELECTRONICS

Products designed around single function or multi-function uses, which operate individually or in conjunction with other products. Examples include:

CE Related Clothing and Accessories
Clock Radios
Electronic Gaming Wear
Electronic Toys
Musical Instruments
Personal Electronics
Sports Electronics

Watches
Calculators
Dictation Equipment
Electronic Reference Devices
Mobile Office Accessories
Other Mobile Office Equipment
Wireless Communications Wear

PORTABLE MEDIA PLAYERS

Products incorporating integrated storage and playback capability for audio and/or video content. Products have the capability to connect to desktop and portable computer systems to exchange content. Examples include:

Audio Devices
Audio System Components
DVD Player
eBook readers
Home Video

Media Receivers
MP3 Players
Satellite Radio
Video Devices
Video Player

PORTABLE MULTIMEDIA ACCESSORIES

Products designed to enable, enhance, connect, carry and/or maintain portable media players.
Examples include:

Cables	Faceplates/Skins
Carrying Cases	Flash RAM/Portable Media Storage
Chargers/Adapters	Mounting Hardware
Expansion Docks and Adapters	Supplemental Power Systems

PORTABLE POWER

Devices designed to facilitate the powering and/or charging of consumer electronic products.
Examples include:

Battery Chargers	Power Adapters
Lithium Batteries	Power Inverters
Other Supplemental Power Systems	Rapid Chargers

SOCIAL NETWORKS

A web-based system of linking individuals or groups together. Users should be able to create a profile for themselves and connect with other members. The system should also provide a variety of ways for users to communicate, network, or share information. Examples include:

Internal Social Networking (invite only)	Forums
External Social Networking (open/public)	Blogs with community features

VIDEO ACCESSORIES

Products designed to enable, enhance, connect and/or maintain home video systems and components.
Examples include:

Cables	Other Video Accessories
Connectors	Remote Controls
Digital Satellite Systems Accessories	Signal Modifiers
Flat Panel Mounts/Wall Mounts	TV Stands
Other Video Accessories	Wires and Cables

VIDEO COMPONENTS

Systems or components designed to provide playback, storage and/or distribution of video signals and content in the home. Examples include:

Digital/Personal Video Recorders (DVR,PVR)	Video Displays
DVD Recorders	Set-Top Boxes
Multi-room Video Products	

INTERNATIONAL CES INNOVATIONS 2011 DESIGN AND ENGINEERING AWARDS CATEGORY GUIDE

VIDEO DISPLAYS

Devices whose primary purpose is the display of video content not including items marketed and sold primarily as computer monitors. Examples include:

- | | |
|--|---------------------------|
| 3-D Technology | LCOS Displays |
| Big Screen (25" and over) Direct View TV | OLED Displays |
| Digital Direct-View | Other Digital TV Products |
| Digital Front Projection | Other Projection TVs |
| Digital Rear Projection | Other Video Displays |
| DLP Displays | Plasma-Screen Displays |
| Flat Panel Displays All Types | Projectors |
| LCD Screen Displays | TV/DVD Combinations |

WIRELESS HANDSETS

Items marketed primarily for the ability to provide wireless calling capability. The products in this category, in addition to having voice calling features, may also incorporate wireless data and Internet access features along with built in camera and media playback functionality. Examples include:

- | | |
|---------------|-------------------------------|
| Mobile Phones | Two-Way Radios (Family Radio) |
| Pagers | Wireless Email/Phone Devices |
| PDAs | Wireless Handsets |
| Smart Phones | |

WIRELESS HANDSET ACCESSORIES

Products designed to enable, enhance, connect, carry and/or maintain wireless handsets. Examples include:

- | | |
|-------------------------------|---|
| Antennas | Memory Cards |
| Battery Packs | Mobile Phone Accessories |
| Cables | Mounting Hardware |
| Carrying Cases | Other Wireless Phone Accessories |
| Cellular Phone Accessories | Paging Accessories |
| Chargers/Adapters | Smart Phones Accessories |
| Earpieces/Headsets | Supplemental Power Systems |
| Faceplates/Skins | Two-Way Radios (Family Radio) Accessories |
| Hand-Held Wireless Data Cards | Wireless Email/Phone Devices Accessories |
