Smart City has the exclusive contract to install all voice and data communications cabling. This includes all cabling to booths, **within booths (under carpet and flooring)** and from booth-to-booth. - ❖ **Labor cost** - \$75.00 an hour per technician, with a one hour minimum.
- ❖ **Floor work** - Estimated at 4 cables per hour (this is a conservative estimate assuming normal circumstances with timely request for service and a complete floor plan received by 12/21/05. Please select the floor work option that you will require for your booth:

- ☐ **Yes**, we will need to order floor work from Smart City for our booth.
_____ Estimated number of labor hours. Please add this to our order.
- ☐ **No**, we will not require floor work for our booth. We will not be laying our cables across aisles or under carpet or flooring.

If utilizing an outside carrier for telephone service, you will need to obtain the telephone number and / or circuit number from them and pass that information on to us. For ISDN service please indicate the SPID #'s, for T-1s or other special circuits we need to have an installation date, the carrier name and contact, and the circuit ID# so we can identify and extend the proper circuit. Consult the Order Form for extension prices.

ISDN Line

This set can also accommodate a key expansion module for additional feature keys.
