What is Global Entry?

Global Entry is a CBP program that allows expedited clearance for pre-approved, low-risk travelers upon arrival in the United States. Though intended for frequent international travelers, there is no minimum number of trips necessary to qualify for the program. Participants may enter the United States by using automated kiosks located at select airports.

How Does the Global Entry Program Work?

At airports, program participants proceed to Global Entry kiosks, present their machine-readable U.S. passport or permanent resident card, place their fingertips on the scanner for fingerprint verification, and make a customs declaration. The kiosk issues the traveler a transaction receipt and directs the traveler to baggage claim and the exit.
