

America's economy is ready for a **COMEBACK.**

Sign the Declaration of Innovation today.

As the Consumer Electronics Association (CEA) maps out in *The Comeback: How Innovation Will Restore the American Dream*, the best way to secure our nation's future is to return innovation to its rightful place at the center of America's economic policy.

This Independence Day we have the opportunity to continue our forefathers' dreams to build a prosperous nation. Join the movement to restore America's economic prosperity by signing the Declaration of Innovation.

The Declaration of Innovation urges policies that promote innovation.

We believe:

- American innovators should be able to buy and sell their products around the world.
- More wireless spectrum must be available for wireless broadband.
- In welcoming the best and brightest minds to the U.S.
- In cutting the federal deficit.
