

CES TechZone Pod Information

We are happy to have you as part of the 2011 International CES as a TechZone pod exhibitor at the Las Vegas Convention Center! We've put together step-by-step instructions to help guide you through the 2011 International CES and ensure that your TechZone experience is as seamless as possible. Please read through the following information explaining your space, what forms you need to fill out, and how to best prepare for the show.

New this year, we are going green! As part of your TechZone pod package, the backwall and counter panels, carpet and wastebasket are now recyclable products. So in addition to saving money on shipping and material handling costs as well as valuable time by having your exhibit ready and waiting for you at the show, it also makes much less of an impact on the environment after the show.

Your pod package will include a backwall and counter panels, a company ID sign, black carpet, stools, a literature rack, wastebasket, arm light and a 500 watt outlet. See diagram on page 3 for more details.

Exhibitors will be responsible for all aspects of their TechZone display over and above what is included in your package. This includes custom graphics, additional electrical, Internet, etc. All order forms are included in this TechZone packet and may also be found in the full CES Exhibitor Manual at www.CESweb.org/manual.

Be sure to be mindful of the following procedures:

- **Ordering additional electrical** – Ordering additional electrical before the deadline is CRITICAL for TechZone exhibitors. Because there is standard carpet, it is extremely difficult and time consuming to fish wires under the carpet if electrical is ordered once the carpet has been laid. **Electrical services are provided by GES** and can be found within this exhibitor manual. You will need to fill out an **Electrical Rental Order Form**, an **Electrical Labor Order Form**, draw your electrical drops on your **Booth Layout Form** and fill out the **Electrical Credit Card Charge Authorization Form**. Each one must be submitted to GES on or before **December 8, 2010**.
- **Ordering phone and Internet** – **Smart City is the provider of all phone and Internet services** and their forms can be found within this exhibitor manual. You will need to fill out each form according to the services you will need along with a Booth Layout form to indicate placement. You must turn these forms into Smart City no later than the **December 6, 2010** deadline.
- **Shipping** – You have two options for your shipment. You can ship to the GES warehouse in advance, or you may ship directly to show site. Advance warehouse shipments must arrive on or before Friday, December 17, 2010, but this method assures you that you will have your freight delivered by 8 a.m. on your move-in date, Tuesday, January 4, 2011. Direct to show site shipments must be scheduled by you to arrive on your target move-in date, Tuesday, January 4, 2011. Direct shipments must go through the GES marshalliong yard, so the shipment usually does not arrive in your space until the afternoon or evening.
 - Be sure to read the **Material Handling Information**
 - Fill out the appropriate **Shipping Labels** depending on which shipping method you chose and affix to each box in your shipment.
 - Fill out the **Freight Service Questionnaire** and return to GES.
 - Fill out the **Pre-Printed Outbound Material Handling Request** and return to

GES. This will allow for a smooth outbound shipment at the end of the show.

- **Signs/Graphics** – Hanging signs are NOT permitted in TechZones, but you may adhere graphics to the panels. All graphics must be either laminated or mounted to a backing such as foamcore. Exhibitors must provide their own Velcro or double sided tape. Dimensions of the panels can be found on the next page and you can also contact GES to produce special panels at an additional cost.
- **For General Rules and Regulations** - please refer to the exhibitor manual at www.cesweb.org/exhibitors/manual

What you need to know on-site

When you arrive on show site, your TechZone space should be fully assembled and waiting for you. If you have any questions once you arrive on-site, visit the GES Service Desk in your hall.

We hope these instructions will provide you with everything you need to prepare for the 2011 International CES. If you have any questions, Please contact Martina Mirabella, Coordinator, CES Operations at mmirabella@CE.org or 703-907-5243. We look forward to seeing you in Las Vegas!

ELECTRICAL CODE

Electrical requirements for an exhibit at all convention facilities are for the safety of all Exhibitors and are based on national electrical codes and local ordinances. Too frequently, fires have been traceable to faulty wiring, sometimes because of carelessness and sometimes because of lack of understanding of the risks involved.

In the interest of public safety, exhibits at all convention facilities may be inspected to determine if any violations exist. If they are found, qualified electricians are available to correct the problems. This work will be performed on a time and materials basis. If the Exhibitor does not wish to have the fault corrected, electrical service to the offending booth will not be connected.

If an Exhibitor is not informed or does not understand basic safety standards for electrical wiring, an electrician should be consulted before shipment is made to convention facilities.

Serious risks are involved which can be eliminated by understanding basic requirements of safe wiring inside your booth. For the safety of you and the public, remember these points:

- All wiring must have a 3-wire grounded cord with a minimum of #14 gauge.
- Spot or flood lighting is a hazard when lamps are too close to fabrics or other material which can be affected by heat.
- The use of clip-on sign sockets, latex, or lamp cord wire in displays, or the use of 2-wire clamp on fixtures, is prohibited by order of fire prevention bureaus at trade shows and conventions.
- Zip cords or two-wire cords are ungrounded and could result in safety hazards. Their use is forbidden in all convention facilities. Please leave all 2-wire cords at home!
- Exhibitor is responsible for providing surge protectors for their Goods. GES is not responsible for loss or damage resulting from power surges. Furthermore, GES's liability for any and all loss or damage is limited to the value of the cost of electrical services provided or depreciated value of Goods, whichever is less.

If you have any questions, please call us at 800.475.2098

Remember these important facts when ordering labor:

1. Exhibitors can take advantage of two labor rates at the Las Vegas Convention Center (see Electrical Labor Order Form, E-3, for rates):

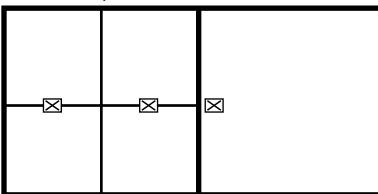

Incentive Labor Rate: This rate allows exhibitors to do more advance work in an effort to alleviate the crunch on the weekend before CES.

Composite Labor Rate: This rate offers a longer 11-hour window of work time and allows GES to guarantee multiple start times before 8:00 AM.

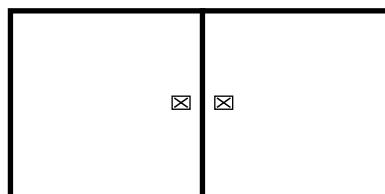

2. Labor is only guaranteed at 8:00 AM Guaranteed start times for January 2 - 5, 2011 before 8:00 AM.
3. There is a minimum of 1 hour in, ½ hour out for all labor ordered.
4. Monday through Friday 8:00 AM to 5:00 PM is straight time. Holidays and weekends are billed at overtime rates.
5. **Labor dismantle is charged at 50% of total labor in. Overtime rates may apply.**
6. **A supervision surcharge of 30% will be added to labor performed when exhibitor or exhibitor's representatives are not present.**
7. **Labor ordered at show site will be surcharged at 30%.**

Where will my outlet be located?

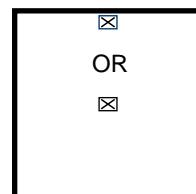

There are four different types of trade show booths: Line Booths, Peninsula Booths, Back-to-Back Peninsula Booths, Pavilion Booths, and Island Booths. Each type of booth has its own standard method of installation. In the following diagrams, the symbol represents the approximate location of power outlets. Main drop locations must be indicated on the floor plan as MDL:

Line Booths

Peninsula Booths

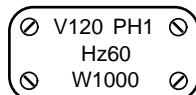

Island/Pavilion Booths

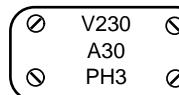

One drop within booth when power source is in ceiling or one location on perimeter when power is in the floor.

How much power do I need?

Calculate your lighting needs by adding wattage in each location. For other equipment, read the ratings from the metal plates attached to each unit.

120 Volt Single Phase
60 Cycle
1000 Watts

230 volts
30 Amps
3 Phase

Line Booths, Peninsula Booths, or Back-to-Back Peninsula Booths:

Your pre-ordered electrical outlet will be installed at the rear of your booth, at the drape line.

***Please contact GES for specific location of power as sources vary based on location.**

Island or Pavilion Booths: You need to designate one location for each outlet you order. Multiple outlet locations will be charged on a labor and material basis. For facilities with power originating in the floor, your electrical outlet will be placed at one location at our discretion. All other distribution will be done on a time and material basis. If you fail to provide us with a floor plan, outlet will be placed at one location at our discretion.

Network Security Declaration

Center: Las Vegas CC (030) - NV
Show: 2011 INTERNATIONAL CES

Company Name: _____
Booth / Room #: _____
Customer / Ref #: **2011 - 030 - 794 -**

The Network Security Policy implemented for this Facility requires Customer(s) adherence to several necessary precautions in order for Smart City to maintain a healthy, viable network for all Customers. This declaration of compliance with the security requirements as noted herein is an acknowledgement of Smart City's filtering policies and must be completed, signed by an authorized Customer representative and mailed or faxed to Smart City prior to the requested network service(s) being activated for Customer's usage.

Network Security Policy:

Smart City requires that all devices directly or indirectly accessing Smart City's network(s) have the latest virus scan software, Windows® security updates, system patches, and any other technological precautions necessary to protect the Customer(s) and others from viruses, malicious programs, and other disruptive applications. Any device(s) which adversely impacts Smart City's network(s) may cause service interruptions to Customer(s) which can lead to disconnection of the Customer's equipment from the network(s), with or without prior notice at Smart City's sole discretion. The device(s) in question will remain disconnected until all issues are adequately resolved. All charges will apply and no refunds will be given. Additional charges may apply for trouble diagnosis and / or problem resolution.

Smart City has implemented filtering policies on all Internet routers. These filters block all inbound Internet Control Message Protocol (ICMP) -- Ping, Traceroute, etc. -- destined to any Smart City Network(s). Smart City understands that Ping and Traceroute are valuable troubleshooting tools; therefore Smart City's Policy does allow ICMP (Ping & Traceroute) packets sourced from any Smart City network(s).

Further, to avoid infection by common Internet worms (Nachi, MSBlaster, LoveSAN, etc.), Smart City has implemented similar filters on the following TCP and UDP port numbers: UDP – 137, 138, 402, 1434 and TCP – 135, 139, 402, 445, 4444.

Customers requiring inbound or outbound access to any of the filtered ports, should contact a Smart City customer service representative in advance of the event with details of the specific requirements so that Smart City may consider the potential of a customized alternative.

Each Customer's business is important to Smart City and with advanced and timely notification of a Customer's needs we are confident that we can provide network services that perform as expected for all clients.

*** Please inform all show site personnel about the importance of Smart City's Network Security compliance issues ***

Smart City provides cabling to booths, within booths (under carpet and flooring) and from booth-to-booth. Fiber Optic, twisted pair (Category 3, 5 and 6), coaxial and all other non Electrical cables fall under Smart City's area of expertise.

IMPORTANT!! Prior to installation of service, a complete floor plan is required. Please utilize this grid should you not have your own floor plan to send us. You may use a different floor plan for each service group (Telephone, Internet, etc.) or combine all services on one floor plan. For a floor plan to be considered complete it **must** include all the information listed below (Main Distribution Location "MDL", designated location of items within the booth, surrounding booths, scale-length and width).

Adjacent Booth or Aisle#																

X = Main Distribution Location (**MDL**) – The originating line(s) for service, whether from overhead, a floor pocket or a column, will be delivered to a “**MDL**” before being distributed within your booth. Example: Storage area, back of booth, etc. (unless specified, the default for the “**MDL**” will be the back of the booth or at Smart City’s discretion, the most convenient location). All distribution of services to their final destination within the booth will originate from the “**MDL**”. A per line move fee will apply to relocate services within your booth after they have been engineered and / or installed.

Orientation = The Booth or Aisle #'s surrounding your booth. A minimum of one surrounding Booth or Aisle # is required (two or more would be more helpful) for Smart City to accurately install your services.

Size = Booth dimensions (example 10x10) _____ . **Scale** = 1 Box is equal to _____ ft.

- ❖ **Labor cost** - \$75.00 an hour per technician, with a one hour minimum.
- ❖ **Floor work** - Estimated at 4 cables per hour (this is a conservative estimate assuming normal circumstances with timely request for service and a complete floor plan received at least 5 days before show move in. Charges could be greater than our estimate for a variety of reasons such as floor work was ordered late, carpet had already been laid, obstructions / physical structures and other miscellaneous issues that can make cabling more labor intensive and time consuming).
- ❖ **Smart City Cat 5 Cable** - \$50 each (50 ft. cable)

Please select the floor work option that you will require for your booth:

Yes, we will need to order floor work from Smart City for our booth.

Estimating Material Handling Charges

Handling charges are based on the weight of the freight. Shipments are billed by the hundred weight and rounded up to the nearest hundred. Minimum per Shipment may apply, see enclosed Material Handling Order Form for details. Please prepay all shipping charges - GES cannot accept or be responsible for collect shipments. Crated and uncrated shipments must be separated and clearly identified on separate bills of lading with separate weight tickets - otherwise GES will invoice the entire load at the Uncrated rate.

- **Crated** – Material that is skidded, or is in any type of shipping container that can be unloaded at the dock with no additional handling required.
- **Uncrated** – Material that is shipped loose or pad-wrapped, and/or unskidded machinery without proper lifting bars or hooks.
- **Overtime Surcharges** - Shows that move-in or move-out on weekends or after 4:30 PM during the weekday, may be subject to additional overtime surcharges. See enclosed Material Handling Order Form for details.

Estimating Material Handling Charges, *continued*

- **Late Surcharges** – May be charged an additional overtime surcharge
 - a. If advance freight is received before or after the published deadline date for shipments to arrive at the warehouse. See enclosed Material Handling Order Form for details.
 - b. Freight shipments sent to the show after it has opened.
 - c. Freight shipments that are received at showsite that do not meet their published date & time.
- **Shipment Surcharges** – A surcharge will be incurred per shipment for those that are received with incomplete information on shipping labels identifying company name and booth number and/or shipments that are left on the show floor at the end of the show with no labels and no bill of lading turned in.

Machinery Labor and Equipment

Labor and equipment for uncrating, unskidding, positioning, leveling, dismantling, reocrating, and reskidding machinery and/or equipment must be ordered separately. Place your order for this labor using the In-Booth Forklift & Labor Order Form. If your material requires specialized rigging equipment, please notify us promptly so that we can make arrangements. When possible, supply your own rigging equipment with shipments and pre-rig your material.

Storing Empty Containers

Properly labeled empty shipping cartons will be picked up, stored, and returned after the show. Labels are available at the **GES Servicenter®** or from your GES Service Executive and are for empty storage only. Depending on the size of the show, it can take from two to twelve hours to return empty crates. Do not store any items in crates marked "empty." GES has no liability for damage to crates or items sent to empty storage in crates.

Outgoing Shipments

An OMHF (Outbound Material Handling Form / Bill of Lading) must accompany all outgoing shipments. Shipping information, outbound forms and labels will be available at the **GES Servicenter®**. Exhibitors selecting non-official carriers will need to make their own arrangements for pickup. Make sure that someone from your company will be on-site to oversee the outbound shipment of your display and product.

Measure of Damage

- **Liability** – GES is liable for loss or damage to your Goods only if the loss or damage is caused by GES negligence.
